

**Remarks**

This Paper is submitted to correct an inadvertent typographical error in the drawings of the captioned patent application.

The legend for the graph of originally filed Figure 2 erroneously indicates that three curves each represent an 80/20 ratio of PEEB and dicyclopentyldimethoxysilane (DCPDMS).

The accompanying Replacement Sheet corrects this typographical infirmity. The amended legend of Figure 2 correctly identifies the proper PEEB/DCPDMS ratios for each curve depicted in the graph. Figure 2 uses the same symbols for the each respective blend ratio set forth in Figure 1. In particular, both Figure 1 and Figure 2 use a diamond to identify PEEB only, a triangle to identify an 80/20 PEEB/silane blend, a circle to identify a 70/30 PEEB/silane blend, and a square to identify a 90/10 PEEB/silane blend.

Applicants respectfully submit that this correction does not add new matter.

Respectfully submitted,

Ted J. Barthel
